CONCLUSION

As we know after the two long years of Covid people are trying to socialize and explore the beauty of nature, visiting different holy places, historical monuments and many other places.

We did our research on what people needed from their vacation after the pandemic and took reviews from many vloggers about what people are expecting in their vacation plan, and according to that we've tried to give services to our users. Thus we have created a website which will help tourist from foreign countries as well as from India to explore each and every place our incredible India. Our website will give the explorers knowledge about the mythological and historic facts of places.

A scenic mountain landscape during sunset or sunrise. The sky is filled with soft, warm-colored clouds transitioning from blue to orange and yellow. In the foreground, there's a dense forest of green coniferous trees. On the right side, a rocky hillside with some green vegetation is visible. The main focus is a large, bold, black text overlay in the center that reads "THANK YOU!!".

THANK YOU!!

A scenic mountain landscape at sunset. The foreground is filled with a dense forest of green coniferous trees. In the middle ground, a range of mountains is visible, their peaks partially obscured by clouds. The sky is a mix of dark blue and white, with large, billowing clouds on the left and a warm, orange glow from the setting sun on the right.
